

RELEASE NOTES

Firmware-Ver 3.91 [6th June, 2019]

New menu item

- 'PC-incompatible characters' menu item was added.

Dark Mode

- Behavior of stopping dark mode was improved.

USB-DAC Local Player

- Devices added for MELCO marker-less DSD NAGRA TUBE DAC etc.
- Some bugs fixed regarding playback source icon.

Import from CD

- Bugfix regarding specific character of metadata stops importing as error
- Replace PC incompatible character after the CD import. (Replace more character than 3.90)

*** NOTE ***

Files and Folders already imported on 3.90 and uses PC incompatible character will not fixed on the firmware update.

'Support'→'PC-incompatible characters' will check and fix the characters.
